Catering At Its Best

We realize this can be a stressful time for couples ~

With this in mind, we have created complete, all inclusive Wedding Packages to help make planning your reception as easy as possible!

From a simple yet elegant hors d' oeuvre reception to a grand dinner buffet, these packages let you customize the perfect menu for your reception.

If "plated" service is more your style, one of our Event Planners will create a custom menu just for you.

Visit our web site to view our Wedding Packages.

Then call us to have a complimentary consultation with one of our experienced Event Planners.

Let our experienced professional team create a unique reception you and your guest will be sure to enjoy and remember!
