About Event Floral

Event Floral's studio is by appointment only, meaning that every flower purchased to use in your wedding is purchased new and just for you. We have no inventory that needs to be either 'used up' or wasted, so we can provide the freshest product to meet your particular budget or needs. We have a beautiful selection of silver and glassware available to rent, so when you come to the studio for your consultation we can work with our vases or with custom vases to create the look that you want.

Coming to Event Floral's studio is like a play date in a flower fairyland. Everything is 'hands-on' and we work hard to make you feel unique and special, so when you walk out of the consultation you know what everything is going to look like and can feel comfortable leaving the details in Cheri's hands.

Event Floral is a preferred vendor for Royce's Prop Shop, a Portland-based event design firm, and Portland's White House Bed and Breakfast.
