PHOTOBOOTH

Add a little FLASH to your event

Our photo booths offer an old classic feel, but use current digital technology to produce photo quality prints on the spot. All packages include unlimited photos, so guests can go in as often as they want. There will be an attendant throughout the rental period to greet each guest as well as make sure everything goes smoothly. With all of our packages, there is no additional charge to create and add graphics to your photo strip. Pretty much the sky is the limit and we will work with you in creating a layout you like! Other great services we offer are memory books, prop rental and green screen. Having one of our photo booths at your wedding will be the hit of your party and your guests will be talking about it for years!
