### About GuildWorks and Architecture of the Air

MAGICAL, INSPIRED, ROMANTIC, UNIQUE - Your wedding will be enjoyed and remembered as the once in a lifetime occasion that it is. GuildWorks transforms spaces by creating innovative forms using fabric structures. We offer a beautiful alternative to the usual tents. We build "Architecture of the Air." These unique volumes and shapes work magically with light and color giving your cherished moments a distinct and memorable presence. Quite simply, there is nothing else like it.

GuildWorks designs in close collaboration with you. We offer solutions from our rental stock as well as custom designs – solutions that fit your vision and budget. We are experienced with both indoor and outdoor venues. Our versatility in size and scale encompasses everything from an intimate setting to full-on fantasy environments.

From intimate to grand, at GuildWorks, we pride ourselves in being a diverse and growing visual design company, now in our 17th year of providing beautiful environments to our clients.
