

Jazz It - Up Productions

About Jazz It-Up Productions

Jazz It-Up Productions is a full-service entertainment company providing reasonably priced, professional mobile music, lighting, and rental services to the Northwest since 1993. We will guide you through all the steps of your ceremony and reception planning that will lead to a flawless special day. Jazz It-Up Productions has an extensive music library exceeding 20,000 selections. All sound systems have hot spots and we will download up to 20 requested songs we don't have on the spot from amazon mp3.

Styles of music range from the 40's to what's current today in every genre. Requests from you and your guests are always welcome. Our disc jockeys are happy to act as master of ceremonies. We dress in the appropriate attire of the event.

We use only custom built sound and lighting systems to meet the stringent requirements of our industry. All packages include a wireless UHF handheld microphone. We offer packages that include small sound systems for your ceremony to concert sized sound systems for the largest of receptions. We will help you find the package that fits your needs and budget.

Ceremony and reception planner sheets designed by our planning staff help you to plan the music soundtrack for your special day. We find that most customers even circulate these planning sheets to other vendors as the basis for the event time line.

Reception package prices start at \$499 for three hours of service. Our most popular packages don't exceed \$599 for three hours of service and packages can be custom created. Each additional hour can be purchased for \$75 at the time of booking or \$100 at the event. There is no deposit required; a signed contract holds your date. Contact us today toll free.

New package and options available for 2012. Check out our web site for the most current packages.
