LOLA the Photo Booth

LOLA the Photo Booth has character and style adding the perfect vintage accompaniment to any wedding or event. LOLA is where vintage meets high-tech.

LOLA provides all the elements of a classic photo booth with the addition of: high resolution prints, an LCD side viewing monitor, real-time video picture projection, and an online photo-gallery.

"Lola made our wedding even more fabulous! Our reception took place in a tent where the pictures were projected as they were being taken, that was awesome!"

– Lili

"LOLA provided a unique experience for our guests by giving them a photograph "favor" to take home and something fun to do. From taking the photos to putting them into a scrapbook, LOLA was never empty as guests lined up time after time to take photos. Not to mention the super-fun option of the costume box. Children and adults alike were laughing and playing as they took photos in LOLA."

– Marie

Lola the Photo Booth... where vintage meets high-tech and where love and laughter are sure to be captured.
