

# Love & Sass

by

Tree Marie

one of a kind custom creations

Specializing in one-of-a-kind handmade hats and headpieces. I would be honored to create something unique and original for your magical day. I am inspired by vintage and contemporary styles, using traditional millinery techniques with a modern twist.

Pieces are handmade and consciously created with great pride & passion here in Portland. Using vintage & antique elements along with some fine new bits. Also re-using, re-working and salvaging whenever possible. Creating new life, love and of course sass!

If you have always loved hats or it's a new fascination and are thinking about taking the leap and wearing something on your wedding day, I can assist you in designing the perfect accent to your complete look.
