### About The Manhattan Monk

My philosophy is simple: Foremost, a wedding is a celebration. A celebration of two like souls, finding each other in this crazy world! A wedding is a declaration of your unifying love to both communities. The community of family and friends, and the community of the world at large!

Last, but not least, a wedding is about YOU! – the bride and groom. Your wedding ceremony should be a reflection of who you both are; saying things that touch your heart, your mind, and even your sense of humor! Let the Manhattan Monk help make your day fun and from the heart! L'Chaim!
